# HUBEI LITTLE ANT DIAMOND TOOLS CO.,LTD.

Founded in 2003, Hubei Little Ant Diamond Tools Co., Ltd. is a company specializing in the production of diamond tools, located in Huanggang City of Hubei Province, one of the biggest diamond tools processing centers in China.

The factory covers an area of modern standard factory, workshops, office building and warehousing center, now the total area is more than 90,000 square meters. In this big family, there are more than 500 experienced and devoted employees, engaged in research, development, production, sales and after-sales service. Nowadays, Little Ant is now one of the biggest manufacturers of diamond tools for stone processing, providing products for polishing, cutting, grinding, and drilling. Keep developing the new products, Little Ant is always the leader of diamond tools in China, especially the polishing pad.

Little Ant products are not only friendly to the distributor, but also to end-users, matching with most of the current machines, like HTC, Klindex, Husqvarna, not only with consistent good performance, but also with reasonable cost, which helps thousands of clients to solve the problems of stones all over the world, and maintain a win-win cooperation with Little Ant..

As Little Ant grows stronger and stronger, we find the other two branches develop concrete products and repeat tests before being sent to market to ensure the best quality and price.

Now Little Ant offers all series products of stone & concrete for all clients and solves more problems for more customers.
